PRESTIGIOUS CLIENTS

There are Major Government Institution and other companies to whom Noble Steel Mills is providing Steel, Iron products and material.

CORPORATE STRATEGY

We believe maintaining our competitive position in the same business is a challenging task but through our professional employing policy, technical excellence, exploring new growth opportunities for our stakeholders makes the task very simple.

IMPORTERS

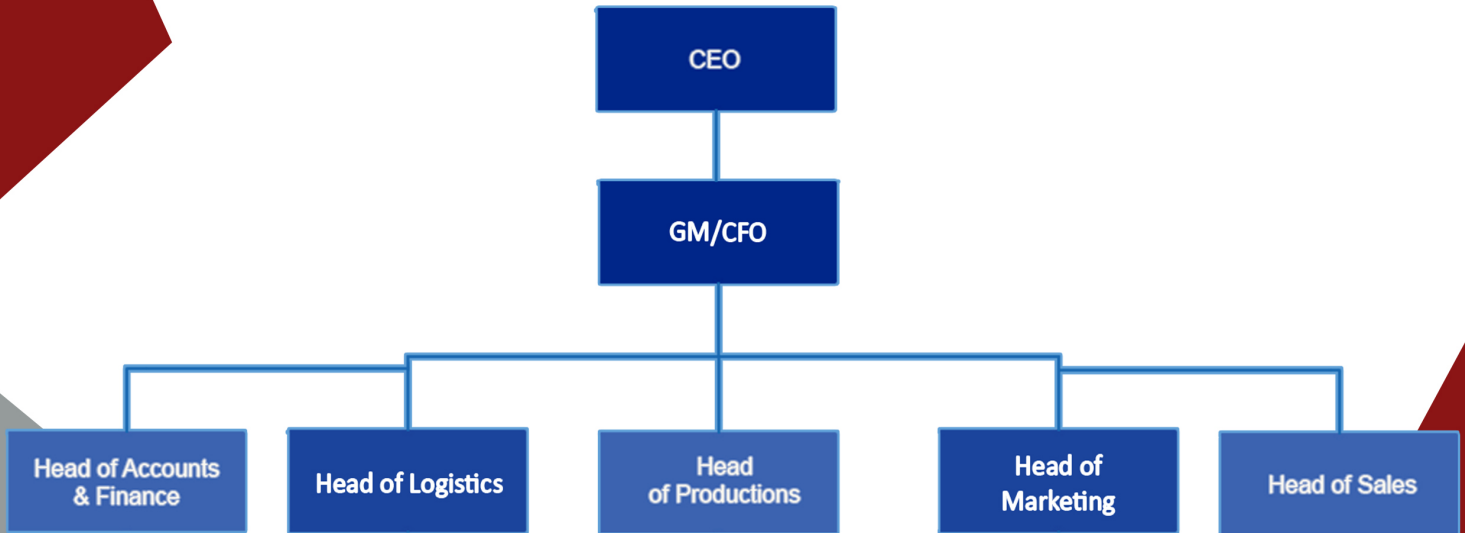

The total demand for iron and steel in Pakistan is approximately 5.0 million tons annually. Whereas unfortunately the production of steel in Pakistan is only 1/3rd of the total demand & local market has to rely on the imported material to fulfill their needs. Noble Steel Pvt. Ltd. matters insourcing the material for its valuable clients from all across the world. We have access to many steel mills all over the world. Noble Steel believes customer comes first and we try our best to meet our customers' requirements. Therefore customized sizes and grades help our clients more efficiently. So we always welcome our clients if they are asking for customized sizes.

STOCKIEST

NSM has established a network of warehouses across RWP/ISB to save the delivery time and cost for our clients and end-users.
